

SHARED FLATS

Private rooms - almost like staying at a hotel - smart living

Our shared flats are completely equipped, furnished and include the weekly cleaning and other services. Price-conscious living with many advantages and amenities like living in a hotel – but with a guaranteed feelgood factor!

In good company

You are new to the region but not on your own. A private room in one of our apartments offers our guests the possibility to enjoy their private space or to interact with others in the community space provided.

Uncomplicated Arrival

Our shared flats are an ideal opportunity for an interim solution or just to get an overall opinion regarding the location. This might be very helpful during your trial period, training, deployment to the Rhein Valley until your family follows or just until you find your own apartment.

Extremely convenient Location

The studios and apartments are all in proximity to public transportation which we place great importance on.

STUDIOS BUCHS

Smart living - New Studios in the town centre of Buchs

Our studios are completely equipped, ready-furnished with weekly cleaning and other services included. Apart from the high-quality standard of the equipment the studios also come with a Smarthome-System. The newly constructed building will be ready by the end of May 2019. Flexible renting periods complement our services.

We are pleased to provide you with further information.

Outstanding Location

The studios are located directly on the main street of town – plenty of shopping opportunities are easily reached by stepping out of the elevator. A big plus is the proximity to the Post Office as well as to the Bus and Train Station within two minutes walking distance.

The smart Home

Control your devices such as light, blinds, room temperature, music and many other electrical equipment via App, Smart-Tablet and Alexa Voice Guide. Your voice is the master of the music – just tell your playlists, radio stations and other sound carriers what you're in the mood for.

Amazon Alexa Voice Guide

"Alexa turn on the light!" This will be your command to use the modern technique in our high-tech studios.
