

PRIVATE ROOMS

Smart living

Our "cosy homes" are completely equipped, furnished, including weekly cleaning and other services. Price-conscious living with a feelgood factor!

In the best company

New in the region and yet not alone: a private room in one of our apartments offers our tenants the possibility to enjoy their private space or to interact with others in the community space provided.

Arrive better

Ideal as an elegant interim solution, or just to get an overall opinion regarding the location: during the trial period, training, deployment to the Rhine Valley, until the family follows or just until your own long-term apartment is found. Of course, our tenants can also stay with us for longer periods.

Excellent location

We attach great importance that the studios and apartments are in proximity to public transportation. The proximity of the borders even allows commuting by bicycle.
